QUICK GLANCE

BIG BAGS

Automatic

30 bags/hour

BENEFITS

- Maximum ergonomic working position for the operator
- Absence of product leakage on the eight adjustment elements
- Dust free working conditions
- Productivity optimization with one single operator
- Absence of product remains avoiding cross contamination possibilities
- The elevation of the filled big bag assures a better settling of the product as well as its centering on the axis of the pallet
- Optimal weight control thanks to its double signal reception system

FEATURES

- Outputs up to 30 big bags/hour depending on product' characteristics, formats to handle and cadence of the operators
- Dosing system by means of gravity, belt conveyor, auger screw or others as per product properties
- Gantry type chassis
- Hydraulic lifting system, allowing to lift the filled big bag
- Double weighing system, on the hooks and on the bottom's platform
- Automatic height adjustment, flexible food-grade system
- Tilting filling spout to ease the placing of the big bag
- Linear guided hooks to enhance ergonomics
- Operator's access platform with presence control and protections
- Weighing controller homologated under MID regulations, Class 0.2

APPLICATIONS

- Agro-feed: Seeds, cereals, cattle feed, pet-foods, premixes, and others
- Foodstuff: Flours, sugar, milk powder, cocoa powder, starches, ingredients, and others
- Chemical & Petrochemical: Fertilizers, PVC, fine chemistry, and others
- Building & mining: Mortars, cements, frit, and others
- Recycling: Biomass pellets, Shredded tyres, and others

OPTIONS

- Anti-corrosive versions to handle highly aggressive products
- Special versions for food industry and hygienic environments
- ATEX versions for installation in Classified Areas
- Automatic pallets in-feed and automatic evacuation of the full pallets
- Big bag's bottom vibration
- Blowing turbine to inflate the PE in-liner
