## QUICK GLANCE

Open mouth

Automatic

1000 bags/hour

## BENEFITS

- Total automation of the bagging process
- Flexibility and quickness on format' changes
- Output optimization at the bagging point
- Absence of remains and possible product contamination
- Maximum accessibility for cleaning and maintenance tasks
- Dust-free working conditions

## FEATURES

- Outputs up to 1.000 bags/hour depending on product' characteristics and formats to handle
- SOS bags with handle, side gussets and squared bottom
- Oval shaped filling spout with external clamp for total obturation
- Bags' top stretching and extraction set by robotic pincers
- Dust aspiration outlets to connect to the filter. Aspiration piloted at the filling spout
- Vertical empty bags' magazine
- Dosing system by means of gravity, belt conveyor or auger screw as per product properties and output requirements
- Simple and user friendly HMI

## APPLICATIONS

- Agro-feed: Seeds, cereals, cattle feed, pet-foods, premixes, and others
- Foodstuff: Flours, semolina, ingredients, sugar, and others
- Building & mining: Sepiolite, Bentonite, and others

## OPTIONS

- Product settling function through bottom vibration
- Integrated closing systems: heat sealing, stitching, pinch top
- ATEX versions for installation in Classified Areas
- Manufacturing in Stainless Steel
