QUICK GLANCE

Valve bags

Semiautomatic

250 bags/hour

BENEFITS

- Absence of remains and possible product contamination
- Dust-free working conditions.
- No need of technical training for the operators
- Almost maintenance-free due to the absence of mechanical elements to introduce the product into the bag

FEATURES

- Outputs up to 250 bags/hour depending on product' characteristics, formats to handle and cadence of operators
- Gravity dosing system
- Mechanical concept that prevents product to build-up in any part or corner
- Aspiration outlets to connect to the filter.
- Filling spout with pneumatic holding system of the bag
- Simple and user friendly HMI
- Weighing controller homologated under MID regulations, Class 0.2

APPLICATIONS

- Agro-feed: Seeds and cereals, and others
- Foodstuff: Sugar, semolina, pulses, nuts, and others
- Chemical & Petrochemical: Plastic granules, granular fertilizers, and others
- Building & mining: Sand, gravel, dried salt, frit, and others

OPTIONS

- Anti-corrosive versions to handle highly aggressive products
- ATEX versions for installation in Classified Areas
- Manufacturing in Stainless Steel
- Operation seat (Automatic fall of the bag on the exit belt conveyor)
