FEATURES

TMI has developed its own range of ILERPES drivers for dynamic weighing applications applied to processes of mostly bagging.

Such units comply pursuant to Directive 2004/22/EC and implementation standard OIML R61-1:2004, section 12 & 13 of D11:2004 OIML, WELMEC Guide 7.2, and WELMEC Guide, approved under precision class 0.2

The ILERPES controller is applied in systems both systems of weight loss and checking of weights on tape, net weight, gross weight
